

Can Whardana Saragih

Fullstack Developer

Jakarta, Indonesia | +6285361500758 | canwhardana@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

A creative minded individual with a background in content creation and design, now looking to become a full-stack web developer. Started my programming journey by graduating from Hacktiv8 intensive coding bootcamp, where I gained hands-on experience building full-stack web applications using modern technologies. After years of working in digital content and design, I decided to pursue my lifelong interest in technology by transitioning into software development - combining creativity with clean, scalable code.

EDUCATION

Hacktiv8	Jakarta, Indonesia
Full Stack JavaScript Immersive Program (Transcript)	February 2025 – June 2025
University IBBI	Medan, Indonesia
Bachelor of Computer Science (Informatics Engineering) (GPA 3.53/4.00)	2019 – 2023

WORK EXPERIENCE

Custom Kekinian	Medan, Indonesia
Video Editor & Graphic Designer	August 2019 – January 2025

- Created and edited high-engagement videos for Instagram, TikTok, and YouTube, helping increase brand visibility and audience reach.
- Designed marketing content and custom T-shirt visuals for two separate business divisions (digital content & fashion).
- Utilized tools like Adobe After Effects, Adobe Premiere Pro, Photoshop, and CorelDRAW to produce visual assets.

Forage, Inc (Website)	Jakarta, Indonesia
Virtual Internship	July 2025

Skyscanner - Front-End Software Engineering ([Certificate](#))

- Developed responsive front-end components using React and BEM methodology, enhancing code maintainability and scalability.
- Applied Skyscanner's design system and implemented reusable UI patterns to ensure consistent visual experience across platforms.
- Improved code performance and layout responsiveness through SCSS variables, BPK mixins, and media queries targeting mobile breakpoints.

Datacom - Software Development ([Certificate](#))

- Identified and fixed a map interaction bug by analyzing event handlers and using browser developer tools to trace the root cause in a React-based cinema application.

- Implemented an interactive map feature using Leaflet and MapLibre that allows users to smoothly navigate and focus on selected cinema locations via dynamic marker clicks.
- Reviewed customer feedback and translated usability pain points into actionable code improvements, enhancing the responsiveness and user experience of a location-based web app.

J.P. Morgan - Software Engineering ([Certificate](#))

- Integrated a decoupled Incentives REST API into the Midas Core system using Spring's RestTemplate, ensuring modular and contract-driven architecture.
- Implemented REST controller logic, H2 in-memory database configuration, and Kafka messaging flow for transaction handling.
- Validated and posted transactions to an external service, processed incentive responses, and updated recipient balances accordingly.

SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Redux, React Native, EJS, HTML, CSS, Tailwind CSS, Bootstrap, Apollo Client

Backend: Node.js, Express.js, GraphQL, Apollo Server, Sequelize, PostgreSQL, MongoDB, Redis, REST API

Tools: Git, Vite, Expo Go, Socket.IO

Design Tools: Adobe After Effects, Adobe Premiere Pro, Photoshop, CorelDRAW

PROJECTS

[Camera Dashboard](#)

July 2025

A responsive admin dashboard for monitoring camera status and system performance, featuring role-based access, real-time data charts, and animated UI interactions.

Tech stack: Express.js, Sequelize, PostgreSQL, EJS, HTML, CSS Bootstrap, JavaScript

[ParkGo](#)

June 2025

A real-time parking mobile app that helps users find and book parking spots easily.

Tech stack: React Native(Expo Go), Apollo Server, Express JS, GraphQL, MongoDB, Redis, Socket.IO,

Midtrans API, Google Places API

[Shophub](#)

May 2025

Web-based e-commerce platform that allows you to browse products and manage wish lists.

Tech stack: Next.js, TypeScript, Tailwind CSS, MongoDB

[Social Media App](#)

May 2025

A fullstack mobile-based social media application built with React Native

Tech stack: Native (Expo Go), Apollo Server, GraphQL, MongoDB, Redis

[ChatVerse](#)

May 2025

A fullstack real-time group chat application with AI assistant

Tech stack: React (Vite), React Context, Express.js, Sequelize, Tailwind CSS, Socket.io OpenAI API

[Planorama](#)

April 2025

A fullstack AI-powered travel planner that estimates budget and generates itineraries.

Tech stack: Express.js, Sequelize, PostgreSQL, React(Vite), Tailwind CSS, Gemini API,

Google Places API

CERTIFICATIONS

HackerRank React (Basic) Certificate

Functions, Currying, Hoisting, Scope, Inheritance, Events and Error Handling.

Certificate: [ab7fe4f7eb3d](#)

Issued in May 2025

No expiration date

HackerRank Problem Solving (Basic) Certificate

Data Structures (Arrays, Strings), Algorithms (Sorting, Searching).

Certificate: [795707773c14](#)

Issued in May 2025

No expiration date

HackerRank JavaScript (Basic) Certificate

Functions, Currying, Hoisting, Scope, Inheritance, Events and Error Handling.

Certificate: [2bcf544a456c](#)

Issued in May 2025

No expiration date

HackerRank SQL (Basic) Certificate

Queries, relationships, and aggregators.

Certificate: [bab52c1efdc8](#)

Issued in May 2025

No expiration date

HackerRank CSS (Basic) Certificate

CSS basics: Cascading, Inheritance, text, layouts, boxing.

Certificate: [b229e49eb949](#)

Issued in May 2025
